

****NOTE: The light level specifications are for a new chamber.**

Light level will vary with temperature and measured 6" from the lights.

Humidity: accuracy @ 20°C is ± 2% between 0% to 90% RH

accuracy @ 20°C is ±3% between 90% to 100% RH

Accuracy will be reduced by ±0.04% RH per degree when temperature moves from 20°C
